FLOOR STAIN for staining halls, stairways and the floors of rooms it is desired to leave uncarpeted during the summer season. We have been preparing this article for many year; past, and have sold large quantities of it in various localities and with universal satisfaction to those who have used it. It is a rich walnut in color (either light or dark as may be wanted), can be epulied by any one with a sponge or brush, dries readily and can be kept clean by simply wiping the floor off with warm suds and a cloth. On ordinary smooth planks one hall gallon is generally sufficient to stain the floor of a room 16 to 18 feet square. Price \$2 per gal. lon. No charge for cans.

O'er the mouldering stern of the old can ac. DESTROYING THE PYRAMIDS. - The news will be received with regret that in Eggs, the hand of the destroyer is at work. A traveler who has recently visited the pyramid, at Gherzeh, and whose investigations extented to Sakkarah, Dashoor and Magdoon, reports that not only was the work of destruction proceeding at a remote place like Dashoor, but at the very scene of Mariette's operation. There have been removed from immediately under the entrance to the Great Pyramid some four or five large stones, and the traveler, a correspondent of the Egyptian Gazette, was informed, on what he could not but regard as trustworthy authority, that this wanton act had been committed by order of the Khedive, the stone being required for the building of the new mosque, which so greatly overshadows the beautiful morque of Sultan Hassan. When the govern ments itself sets an example of this kind we are not surprised that it is promptly followed by meaner folk. At Dashoor, a place seldom visited by tourists, and where consequently the marauder thought hia-self sate, three camels were, during our stay, being loaded with the square white limb stone of the casing of the larger pyramid Few of these stones remain. The upper part of the pyramid has long been stripped. The adjuicing pyramid, which is so conspicaous from Helouan and so remarkable from being built in two dif ferent slopes, had, till lately, its casing meery complete. This easing is of the granst im portance, and, I regret to say, there can be no doubt that here also the destroyer has been busy. Stones loosened from the top of the building have been rolled down the side, tearing and smashing the smooth surface. Three or four large stones have also been removed from below the entrace, which is not me saible without a ladder. It is at little known places lik . Deshoor that such destruction is must easy to
